

Not a Secret Just Forgotten

Esther Francis Joseph

Im only human. Weve all heard that phrase, uttered often in resignation of our human imperfections. But are we only human? Based on a lifetime of experience, author Esther Francis Joseph challenges us to remember what is not a secret, just forgotten. We do not journey alone. From the moment of conception, Spirit has fully equipped us for a lifetime of peace and harmony. Esther teaches us that through the Three Sacred Covenants: the human reproduction initiative, humanitys standing as co-creator with God, and Cause and Effect we can deepen our reconnection to God, spirit self and fellow human beings. These three covenants are not limited to a religion, but instead are an invitation to transform your world, gain a new understanding of yourself and your role in the universe. Through meditation, forgiveness and unconditional love, the world can be a better place. The time to change is now!
